- >> Secrecy shield is included
- >> Range of worktop sizes and colours
- >> 10 Year warranty on metalwork
- >> 5 Year warranty on all electrical components

VariHite  
Compatible

Pull-out  
rack system

### Overview

After years of feedback, and months of development and fine tuning, the Educator<sup>3</sup> has several new and improved features over its predecessor; including a redesign to the front door, hinged side doors, improved cable management and a removable rack.

The Educator<sup>3</sup> boasts options for a fully height adjustable worktop for DDA, ADA and Equality Act compliance with a height range of 815-1050mm. The Educator<sup>3</sup>, with its low-profile look, can be fully customisable with several standard metalwork and worktop finishes. A range of worktop accessories is also available, all discretely hidden with the included secrecy shield.

Made and assembled in the UK, this flexible range of lectern racks start as a blank canvas, enabling you to create the lectern you want to suit your application.
