# LET US SOLVE YOUR SPACE PROBLEMS

## GOT AN IDEA FOR YOUR NEXT SPACE?

Just talk to us. We provide a range of services that can help bring your initial idea to life. Each step will ensure you have full control over the design and our experienced design engineers can provide realistic renders and concept images to ensure each design is exactly what you envisage. Our goal is to maximise your space potential enabling you to connect people with Audio Visual technology.

# OUR SERVICES

**TeamMate®**  
Roomware Solutions

## CONSULTATION

TeamMate offer a free design consultation. Either on the phone, via email or a site visit. We can provide advice on how to maximise your space potential through either utilising one of our existing products, or whether a completely bespoke product will be required.

## PRODUCT MODIFICATION/CUSTOMISATION

TeamMate has a range of standard product that can be modified or customised to enhance user experience or to suit various architectural environments and applications. For example, each product can be customised to cater for a wide variety of audio visual technologies.

## BESPOKE DESIGN

Our design engineers can bring your ideas to life. After consultation and discovering your needs and aspirations we then develop a series of custom designs and renders for sign off. The bespoke service can be used for designing state-of-the-art collaborative teaching spaces through to custom standalone solutions.

## SPACE PLANNING

We can provide a range of 2D DWG plan view drawings ideal for working out how much space you may have in a room. In addition, realistic 3D renders and walkthroughs can be provided to enhance the visual experience of what the space could look like.

# BESPOKE DESIGNS

Laptop workstation with retracting twin screens

Tri-mounted screen stand

Height adjusting and tilting lectern for an interactive screen

Custom lectern

Touch assisted height adjustable mobile trolley

Custom height adjustable podium

## BESPOKE DESIGN

In addition to TeamMate's standard range of product, our team of design engineers can also create bespoke designs based on clients needs and aspirations. We are on hand to work with you every step of the way: From initial concept, to prototyping, all the way through to delivering the solution for your space.

Check out some examples of our bespoke designs.

## FROM INITIAL CONCEPT/RENDER

Our team can produce photo realistic renders of your solution in room settings, enabling you to have piece of mind over your design. We work with you at every stage, from initial idea through to developing intricate details of the product and the size of the space it will be going in. We can then formulate an idea of how the space will look and create a setting for the render photo.

## TO COMPLETED PROJECT

From working closely with you throughout the design phase, TeamMate can manufacture and install fully functional yet contemporary audio visual roomware solutions for your given space. We have designed specialist furniture solutions for a range of projects both small and large across the world: From flexible teaching spaces, boardrooms and laboratories, to libraries and breakout areas.
