

HIGHBAY

The HIGHBAY fixture is specifically designed for a variety of lighting tasks within high halls, gymnasiums and warehouses. To fulfill various photometric tasks and lighting specifications, the HIGHWAY fixture has 2 different angles for added flexibility.

LED FIXTURES

Applications:

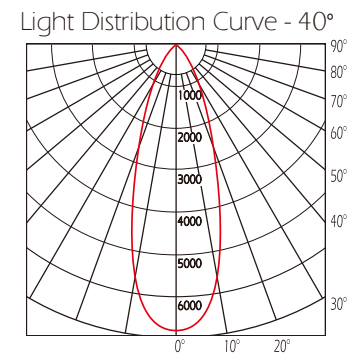

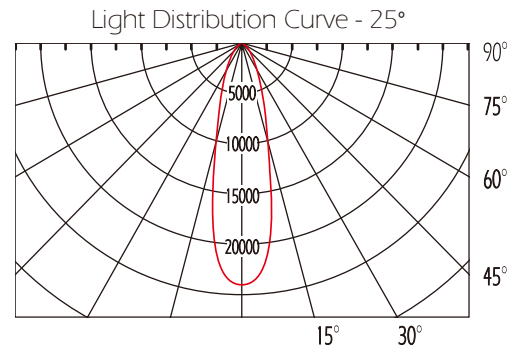

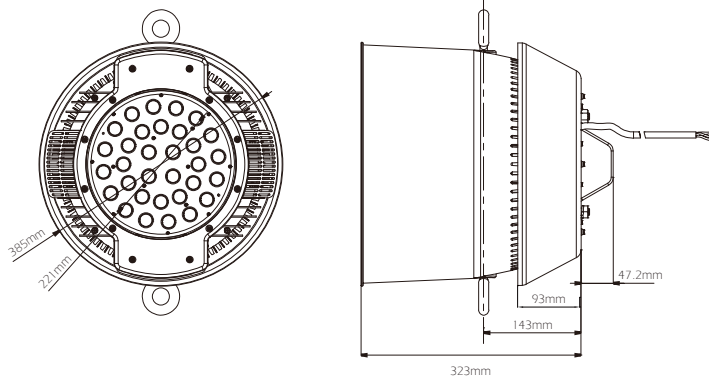

1. Commercial lighting
2. High ceiling lighting
3. Industrial lighting

Features

1. High Efficacy
2. Long Life Span
3. Choice Of Beam Angles
4. Weatherproof IP65

Benefits

1. Cost saving in energy consumption
2. Reduce maintenance costs compared with traditional lighting
3. Able to provide variance for different lighting tasks
4. Suitable for exterior locales

| Part No. | Color | Color Temp (3) (K) | Lumen (lm) | Central Intensity (cd) | CRI (Ra) | Beam Angle |
|------------|-----------------------------------|-----------------------|---------------|------------------------------|-------------|---------------|
| 40290601AA | <input type="checkbox"/> Daylight | 6000 | 3000 | 22100 | 80 | 25° |
| 40290602AA | <input type="checkbox"/> Daylight | 6000 | 3000 | 6900 | 80 | 40° |
