

LED CUBE PRO 15V

LED CUBE Pro 15V is a great solution for the backlighting of large poster light boxes. It has a high uniformity ratio of 85% to create an even spread of light and the resulting luminance is more than that of matches of traditional florescent tubes.

LED FIXTURES

Applications:

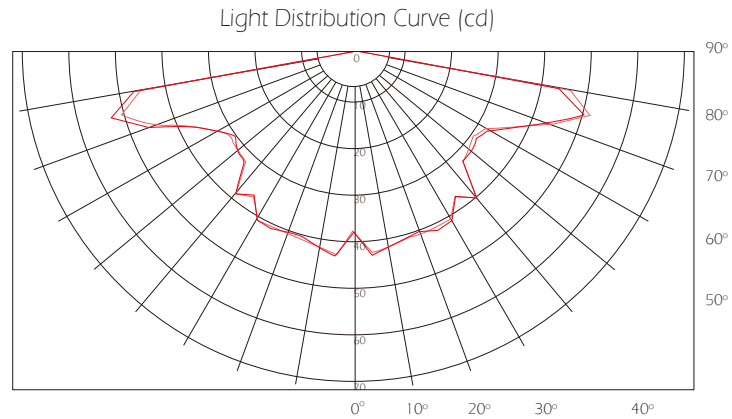

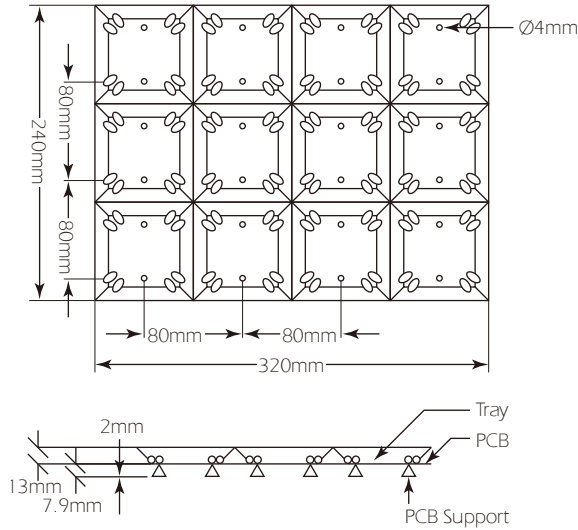

1. Large poster light box backlight, sign, advertising panel

Features

1. Long Life Span
2. High Uniformity
3. High Luminance

Benefits

- Reduced maintenance downtime will maximize advertising revenue
- Excellent performance
- Better lighting performance

Part No. (1)	Color	Color Temp. (3) (K)	Luminance**	Power Consumption	Dimension (mm)	CRI (Ra)	Beam Angle
LC15DL4x3A	<input type="checkbox"/> Daylight	6000	780cd/m ²	5.4W per panel	320 x 240	80	165°

**The luminance measurement is based on 1 set of module panel; 4 pieces of panels: 950cd/m²

- (1) Constant voltage transformer not included; and 12 cubes are arranged in 4x3 matrix
- (2) For indoor use only.
- (3) Color Temp. (Typical).
- (4) Contents and specifications are subject to change without prior notice.
